Washington today enters upon its first music week, proclaimed by its promoters to be the beginning of a new musical era in America.

Two great results are looked for from the hundreds of events scheduled under the supervision of Organizing Director Robert Lawrence during the week. The first is the creation of a city-wide love of music, embracing all types and classes of Washington.

The Smartest Carriage on the Avenue!

Of course your pretty baby must have a pretty carriage—the finest that money can buy.

And it happens that the finest carriage made is not the most expensive! The design is charming-graceful, smart, dignified. The workmanship is perfect—the materials of best quality. How can the Lloyd be so reasonably priced?

Because Marshall B. Lloyd invented a method and loom which produce Baby Carriages and Wicker Furniture thirty times faster and finer than the old hand woven products. These inventions cut labor costs, enabling Mr. Lloyd to weave the finest wickers, use the best materials, employ the most skilled workmen, add the latest refinements and still sell his wicker products at remarkable prices. That's the power of invention.

Ten thousand dealers sell Lloyd Loom Woven Products. No doubt your dealer does. If not, write to us.
